# Beverage Recycling

Our secure in-house operation is unique and allows us to offer the same high standards of traceability and care to your beverage recycling as we provide for food recycling – your brand is safe with us.

We are focused on the beverage recycling and manufacturing waste of all types from the industry including:

- Dairy
- Fruit juices
- Sodas
- Soft drinks
- Smoothies
- Alcohol

## Processing of goods subject to excise duties

We hold the required Customs permits to process national and international excisable goods, such as alcohol. These working arrangements with Customs are strictly adhered to, from processing to transport to the recycling facility.

**The packaging is no barrier for us, we can deal with beverages/liquids in any container you may have such as:**

- Palletised
- Cans
- Cartons
- Glass/plastic bottles
- Tetra Pak

# Glass Recycling

Specialising in all food and beverage products contained in glass we are one of the few companies in the UK that can fully recycle your glass and the product within. From small individual jars of jam to beer bottles we can do it all.

Products we handle in glass range from:

- Apple sauce
- Honey
- Jams
- Mayonnaise
- Olives
- Peanut butter
- Pickles
- Sauces
- Vegetables
- Drinks including alcohol\*

\*qbs have the required Customs permits to process national and international excisable goods, such as alcohol. These working arrangements with Customs are strictly adhered to, from processing to the transport to the recycling facility.

## Why glass recycling with qbs?

Not only will your general waste costs be reduced, glass is 100% recyclable therefore our process results in **zero to landfill**.
